## *Forslean "The Purest of Forskolin"*

by Gloria Vinson & Dr. Charlie Rouse

I've been working in the weight loss & nutrition industry for over 25 years. For the past 14 years , I've found this nutrition to be one of the greatest platforms in my nutritional regimen. I first started using the purest form (Forslean) in 2004, a few years after it was introduced to the market by the Sabinsa Corporation, who owns it's patent, just after it won the prestigious "Best New Product" award 2001.

Forslean is particularly exciting for women over 40 because it restores the youthful responsiveness of fat cells...an advantage to those over 40 who notice diets and supplements are no longer effective. Forslean mobilizes fat and supports the thyroid, but ForsLean does not produce negative effects such as nervousness, jitteriness. Increasing and preserving lean body mass is vital to long term weight control.

One of the most splendid discoveries of medicine comes from our past. Coming from the lands of China and India we have the blending of traditional Chinese medicine and Ayurvedic medicine. The plant coleus forskohlii (from the mint family) gives us the special extract called forskolin. There is a long history of use for this herbal extract, dating back to the beginning of historical records, some 5,000 years. Studies of the pharmacological activity of forskolin substantiate the traditional uses in such conditions as cardiovascular disease, eczema, abdominal colic, respiratory disorders, painful urination, insomnia, psoriasis, eczema, fat burning, and even convulsions. I have many medical books in my personal library that tout the awesome benefits of forskolin. The basic mechanism of action for this wonderful herb is the activation of a specialized enzyme known as adenylate cyclase, which increases cyclic adenosine monophosphate (cAMP) in the mitochondria cells. Cyclic AMP is by far the most important cell-regulating compound the Good Lord has provided for our human bodies. When cAMP levels go up the physiological and biochemical benefits are overwhelming toward good health.

Things like increased insulin secretion, increased thyroid function, and increased fat-burning potential is what got the Sabinsa Corporation to do extensive research on this phytoceutical.

As Sabinsa began to investigate and isolate the purest of all forskolins on the earth, they came up with the "perfect" product. They call their stuff ForsLean. It's the patented part of an herbal nutrient that has proven its worth - it is full spectrum in ingredients and it is standardized to recognize the markers that make it perform so well. Sabinsa took the ancient art of medicine and brought it forth to the modern world. Actually, Sabinsa Corporation won the prestigious "Best New Product" award for its ForsLean product in 2001.

But the greatest discovery with this nutrition is the delivery, getting it through the skin, verses taking it orally!!

When it comes to weight management by promoting wholesome lean body mass, there is none like Forskolin (Forslean). By increasing lipolysis, Forskolin (Forslean) encourages the body to break down stored fat. Lipolysis, the breakdown of stored fat, is regulated by cAMP. Forskolin(Forslean) also helps the body to inhibit the synthesis of fat in adipocytes. This means that forskolin goes after the "old fluffy stuff" as well as preventing the accumulation of "new fluffy stuff." Forskolin (Forslean) is also involved in the breakdown of triglycerides, which are known to be building blocks of fatty tissue. Forskolin (Forslean) has also been shown to counteract the age-related decrease response of fat cells to lipolytic hormones. That's very good news for the Baby Boomers!

So, if all the research on Forskolin (Forslean) is fair-and-square, we should be able to feel less inflammation pain, breathe deeper and more efficiently as our histamine levels are decreased, and optimize our skin's health, all while we are losing excess ugly fat. Hallelujah, what an herb!

For anyone struggling with a battle of maintaining healthy weight, to the right are my my results (inch loss) incorporating a 95% purity of Forslean in a new enhanced delivery through the skin into my daily nutrition regimen.

Request a FREE 3 Day Mini Pack with this new delivery of Forslean!
